

Bridget Monday Burabari

Product Designer

bridgetmondayburabari@gmail.com | [X Profile](#) | [LinkedIn](#) | [Portfolio/Behance](#)

Professional Summary

Strategic Product Designer with **2 years of experience** delivering intuitive, responsive interfaces that align user needs with business goals. I have proven expertise in reducing cognitive load and driving conversion rates through data-driven UI refinements and user-centred research.

Skills

UI/UX Design • Design Systems • Responsive Design • User Research • Information Architecture • Wireframing • Usability Testing • Figma • Canva • Jira • Prototyping • Documentation • Claude AI

Work Experience

Scopevale | UI/UX Facilitator | 11/2025 - Present

- Leading end-to-end mobile app design training, guiding students through the full product lifecycle from user research to high-fidelity prototyping in Figma.
- Mentoring aspiring designers on design thinking methodologies and visual craft, ensuring projects meet industry standards for usability and aesthetics.
- **Standardised** design workflows and curriculum materials to help students master Figma components, auto-layout, and advanced prototyping techniques.

Agrisense Technologies | Product Designer | 12/2024 - 03/2025

- **Optimised** landing page architectures, increasing conversion rates and customer retention through data-driven UI refinements.
- **Collaborated** with cross-functional engineering teams to ensure technical feasibility and seamless hand-off.

- **Synthesised** usability testing data into actionable iterations that resolved critical user pain points.

Projects

Elite Turkey Tours (Redesign) - Figma, Claude AI

- Collaborated on a redesign to reduce cognitive load by restructuring destination categories into a horizontal carousel, enhancing user decision-making.

Move Naija - Figma

- Designed a comprehensive ride-sharing mobile application, leading the user research and interface design phases to create a structured user journey that simplifies urban commuting.

Medi-Guard - Figma

- Designed an end-to-end telemedicine mobile application, managing the full UI/UX lifecycle from initial user research to high-fidelity prototyping to streamline doctor-patient appointment scheduling.

Education

Bachelor of Science in Political Science | Rivers State University |
09/2020 – 10/2024
